↓

Student Return-to-School Criteria

Student may return:

10 days after the most recent exposure if the student remains asymptomatic during the quarantine.

or

Quarantine may be limited to a minimum of 7 days from the date of most recent exposure if tested negative on or after day 5 of quarantine and remains asymptomatic. (Student may return to school on day 8.)

Student may return after 10 days since first positive COVID-19 test <u>and</u> does not develop symptoms.

If diagnosed with COVID-19 based on a test, their symptoms, or does not get a COVID-19 test but has symptoms, student may return after 10 days have passed since symptoms first appeared <u>and</u> fever-free for 24 hours without the use of fever-reducing medications <u>and</u> improvement in symptoms

or

If LHCP evaluates the student and determines the symptoms are associated with another illness/infection, a release to return to school will be required for return

or

If tests negative for COVID-19, may return once symptoms improve and a negative test is provided.
